Led screen ARIA
Rental Industry - Outdoor

ARIA

Perfect visibility in every light conditions.

Lightweight modular LED screen for **outdoor rental** applications, available with 500x500 and 500x1000 mm cabinets, characterised by Black-face SMD LED technology which guarantees an uncommon high contrast for a perfect viewing experience even in the brightest conditions.

Modular design with ultra-light aluminium alloy frame, **bendable up to 6°** (step by $\pm 3^\circ$) with high-precision cabinet coupling. Front and rear maintenance with rapid magnetic coupling system which allows the presence of only one technician during assembly and dismount.

Perfect visual rendering thanks to the refresh rate 7860 Hz (8 scan) and brand new **K10 Receiving Cards**, which make Aria the perfect solution also for creations of Virtual Production ceilings.

Thanks to its **curved corner cabinet**, Aria enables you to create polygonal shapes for an uninterrupted viewing experience.

Wave&Co services are tailored to create innovation and excellence *beyond imaginable*.

We have been chosen by our suppliers as a **Partner Hub Headquarter** in Italy to guarantee +5000 sqm of warehouse and logistics.

We have created a synergic and solid network of **Top Clients**, enabling us to ensure +3000 sqm of Led wall, always ready to respond to any need.

services

DESIGN AND PROTOTYPING CONSULTANCY

We support our clients in designing solutions beyond imaginable

A design and structural vision of the construction of screens and their control systems to guarantee the

TECHNICAL ASSISTANCE UNDER WARRANTY

Our laboratory and specialized technicians are at our clients' disposal to ensure seamless operations

- Wave&Co screens are protected by a 3-year warranty.
- We also provide remote assistance from our Headquarters to guarantee maximum support in every setting phase.
- You can also request our support during assembly and set-up of our screens on site.

AD HOC TRAINING

We never leave our clients alone

- The purchase comprises a one-day training session to address issues concerning the assembly and software set-up of the LED screen.
- Wave&Co has always valued training and refresher courses and therefore periodically organizes certified Ledwall Academy training courses open to all.
- In addition, we also offer "tailor-made" training courses for our clients' technical teams alongside in-depth demos of our products

TAILOR-MADE RENTAL

We are the only partner to have designed a unique solution tailored around our clients' needs

Once they have purchased our screens, clients join our network and thus gain access to larger screens, belonging to the same batch purchased to ensure the same colorimetry and boost business opportu-

MAINTENANCE AND REPAIR

We continue to take care of the Wave&Co screens our clients have purchased

Our workshop provides a full range of technologies and a broad availability of spare parts. We help our clients to promptly address any repair need with a mind to restoring the highest standards of screen performance quality.

In case of urgent repair requests, we guarantee our clients responsive and efficient handling so that they can deal with the next
