— Our LED Totem are LED screens with a modular design, highly customisable in terms of finishes and dimensions in order to enhance and draw attention to the message to be communicated. They are available in both single-sided and double-sided versions.

Thanks to their plug and play function, speed of use and functionality is ensured. The total absence of cables makes these screens ready-to-use products and particularly adaptable and functional for any context.

# services

Wave&Co services are tailored to create innovation and excellence *beyond imaginable*. We have been chosen by our suppliers as a Partner Hub Headquarter in Italy to guarantee +5000 sqm of warehouse and logistics. We have created a synergic and solid network of Top Clients, enabling us to ensure +3000 sqm of Led wall, always ready to respond to any need.

## DESIGN AND PROTOTYPING CONSULTANCY

*We support our clients in designing solutions beyond imaginable*

A design and structural vision of the construction of screens and their control systems to guarantee the highest quality output, always.

## TECHNICAL ASSISTANCE UNDER WARRANTY

*Our laboratory and specialized technicians are at our clients' disposal to ensure seamless operations*

- Wave&Co screens are protected by a 3-year warranty.
- We also provide remote assistance from our Headquarters to guarantee maximum support in every setting phase.
- You can also request our support during assembly and set-up of our screens on site.

## AD HOC TRAINING

*We never leave our clients alone*

- The purchase comprises a one-day training session to address issues concerning the assembly and software set-up of the LED screen.
- Wave&Co has always valued training and refresher courses and therefore periodically organizes certified Ledwall Academy training courses open to all.
- In addition, we also offer "tailor-made" training courses for our clients' technical teams alongside in-depth demos of our products and topics of interest.

## TAILOR-MADE RENTAL

*We are the only partner to have designed a unique solution tailored around our clients' needs*

Once they have purchased our screens, clients join our network and thus gain access to larger screens, belonging to the same batch purchased to ensure the same colorimetry and boost business opportunities without additional investment.

## MAINTENANCE AND REPAIR

*We continue to take care of the Wave&Co screens our clients have purchased*

Our workshop provides a full range of technologies and a broad availability of spare parts. We help our clients to promptly address any repair need with a mind to restoring the highest standards of screen performance quality.

In case of urgent repair requests, we guarantee our clients responsive and efficient handling so that they can deal with the next event in time.
