MATERIA 1.5

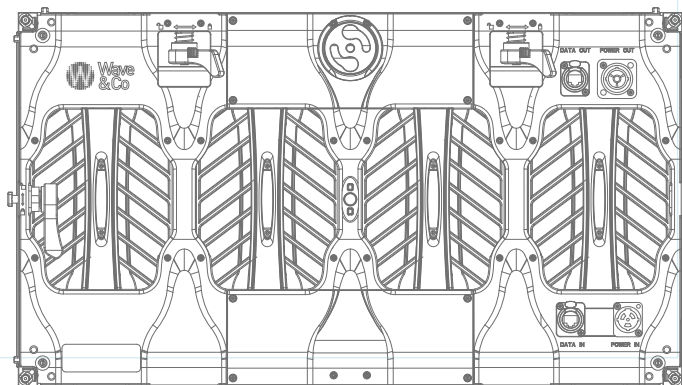

Indoor Modular LED Screens
to redefine the Rental industry

The essence of immersiveness.

INDOOR APPLICATIONS

Exhibitions and events,
virtual production

Materia proves the best choice
for TV studios, broadcasting, exhibition
events, conferences, control rooms
and professional gaming screens.

337,5 cm

600 cm

With the latest patented **IMD Miniled 4in1 technology**, Materia delivers unforgettable 360° viewing and sharing experiences. Groundbreaking design with **interchangeable and magnetic modules like the cabinets**, front and rear serviceability to ensure speed at all times, native **16:9** standard format.

This technology delivers a screen with **very deep blacks** and aided by HDR10, ensures **optimal contrast** thanks to the **very high refresh rate** for high visual performance both with the naked eye and on camera with both a horizontal and vertical viewing angle of $170^\circ \pm 10^\circ$.

Wave&Co services are tailored to create innovation and excellence *beyond imaginable*. We have been chosen by our suppliers as a **Partner Hub Headquarter** in Italy to guarantee +5000 sqm of warehouse and logistics. We have created a **synergic and solid network of Top Clients**, enabling us to ensure +3000 sqm of Led wall, always ready to respond to any need.

DESIGN AND PROTOTYPING CONSULTANCY

■ We support our clients in designing solutions beyond imaginable

A design and structural vision of the construction of screens and their control systems to guarantee the highest quality output, always.

TECHNICAL ASSISTANCE UNDER WARRANTY

■ Our laboratory and specialized technicians are at our clients' disposal to ensure seamless operations

- Wave&Co screens are protected by a 3-year warranty.
- We also provide remote assistance from our Headquarters to guarantee maximum support in every setting phase.
- You can also request our support during assembly and set-up of our screens on site.

AD HOC TRAINING

■ We never leave our clients alone

- The purchase comprises a one-day training session to address issues concerning the assembly and software set-up of the LED screen.
- Wave&Co has always valued training and refresher courses and therefore periodically organizes certified Ledwall Academy training courses open to all.
- In addition, we also offer "tailor-made" training courses for our clients' technical teams alongside in-depth demos of our products and topics of interest.

MAINTENANCE AND REPAIR

■ We continue to take care of the Wave&Co screens our clients have purchased

Our workshop provides a full range of technologies and a broad availability of spare parts. We help our clients to promptly address any repair need with a mind to restoring the highest standards of screen performance quality.

In case of urgent repair requests, we guarantee our clients responsive and efficient handling so that they can deal with the next event in time.

TAILOR-MADE RENTAL

■ We are the only partner to have designed a unique solution tailored around our clients' needs

Once they have purchased our screens, clients join our network and thus gain access to larger screens, belonging to the same batch purchased to ensure the same colorimetry and boost business opportunities without additional investment.
