Led screen SIMBIOSI

Fixed installation

The true transparent screen for a holographic effect.

— The true transparent screen for a **holographic effect**.

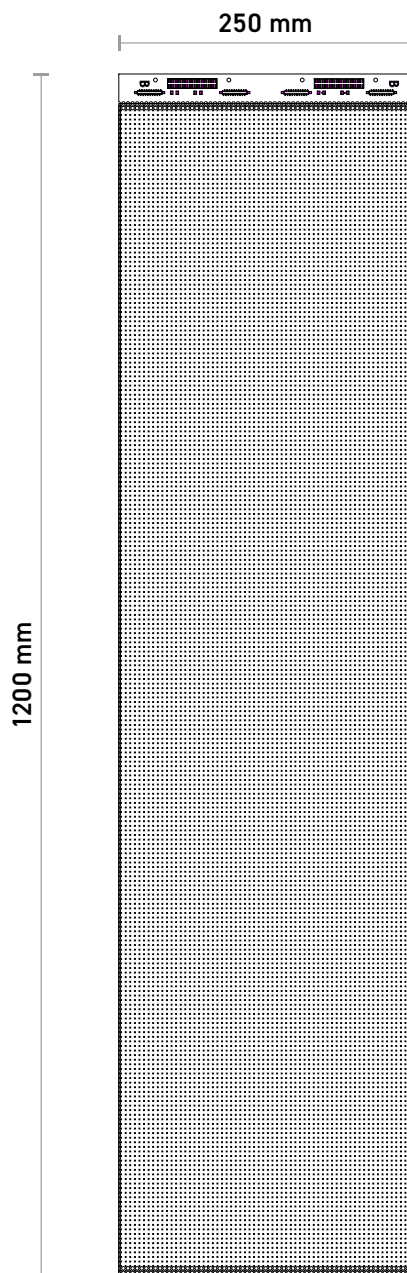

Simbiosi is a modular transparent LED film for fixed indoor installation that allows you to pass through the content and look beyond the screen.

Modular design thanks to the transparent and flexible modules applicable on multiple surfaces.

High brightness and transparency enable you to obtain unique holographic effects capable of capturing attention.

Thanks to the use of cutting-edge technologies, the circuits have been integrated into every single pixel, allowing for a clean, seamless layout that accentuates the holographic transparency effect.

services

Wave&Co services are tailored to create innovation and excellence *beyond imaginable*. We have been chosen by our suppliers as a **Partner Hub Headquarter** in Italy to guarantee **+5000 sqm** of warehouse and logistics. We have created a **synergic and solid network of Top Clients**, enabling us to ensure **+3000 sqm** of Led wall, always ready to respond to any need.

DESIGN AND PROTOTYPING CONSULTANCY

We support our clients in designing solutions beyond imaginable

A design and structural vision of the construction of screens and their control systems to guarantee the highest quality output, always.

TECHNICAL ASSISTANCE UNDER WARRANTY

Our laboratory and specialized technicians are at our clients' disposal to ensure seamless operations

- Wave&Co screens are protected by a 3-year warranty.
- We also provide remote assistance from our Headquarters to guarantee maximum support in every setting phase.
- You can also request our support during assembly and set-up of our screens on site.

AD HOC TRAINING

We never leave our clients alone

- The purchase comprises a one-day training session to address issues concerning the assembly and software set-up of the LED screen.
- Wave&Co has always valued training and refresher courses and therefore periodically organizes certified Ledwall Academy training courses open to all.
- In addition, we also offer "tailor-made" training courses for our clients' technical teams alongside in-depth demos of our products and topics of interest.

TAILOR-MADE RENTAL

We are the only partner to have designed a unique solution tailored around our clients' needs

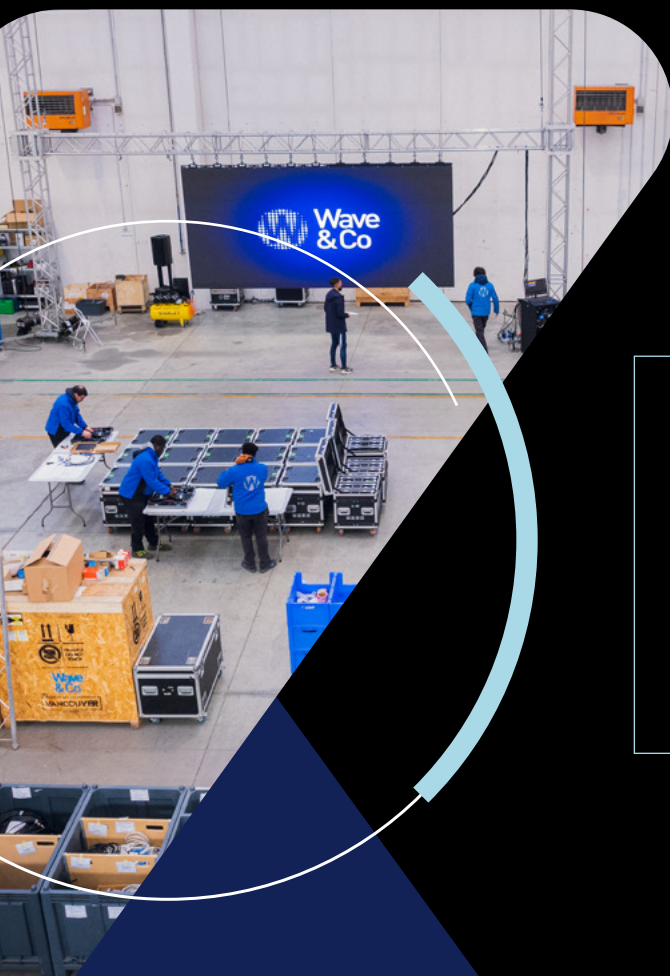

Once they have purchased our screens, clients join our network and thus gain access to larger screens, belonging to the same batch purchased to ensure the same colorimetry and boost business opportunities without additional investment.

MAINTENANCE AND REPAIR

We continue to take care of the Wave&Co screens our clients have purchased

Our workshop provides a full range of technologies and a broad availability of spare parts. We help our clients to promptly address any repair need with a mind to restoring the highest standards of screen performance quality.

In case of urgent repair requests, we guarantee our clients responsive and efficient handling so that they can deal with the next event in time.
